Гарантийное обслуживание

По всем вопросам, связанным с ремонтом или сервисным обслуживанием музыкальной рабочей станции/ сэмплера М3, обращайтесь к представителям фирмы Korg — компании A&T Trade. Телефон для справок (495) 796-9262; e-mail: synth@soundmanage.ru

Файл PRODUCER.PCG

Файл PRODUCER.PCG содержит упорядоченный список стандартных заводских программ.

При поставке с завода, программы находятся в перемешанном порядке, поэтому их последовательное переключение может привести к загрузке первым фортепиано, затем пэда, затем набора ударных, и так далее. Этот порядок заводских пресетов система М3 хранит в качестве данных Preload PCG.

С другой стороны, в файле PRODUCER.PCG те же программы организованы по группам. При их последовательном переключении становится понятным, что все категории программ собраны вместе — фортепиано с фортепиано, пэды с пэдами, и так далее. Это позволяет кнопками INC и DEC быстро перебирать звуки программ в рамках одной группы, не обращаясь к меню Category.

Комбинации остаются в стандартном заводском порядке, но при редакции ссылки на соответствующие программы остаются корректными.

Расположение банков EDS и RADIAS аналогично стандартному заводскому порядку: программы EDS находятся в банках INT-A, B, C, D, E, USER-A, B, C, D, а программы RADIAS находятся в банке INT-F.

Файл PRODUCER.PCG можно загрузить с CD-ROM.

Полный список программ и их порядка расположения приведен в файле M3_PRODUCER_VNL.pdf. Все другие звуковые данные, типа комбинаций и наборов ударных, аналогичны стандартным данным Preload PCG. Информация о них приведена в файле M3_VNL.pdf.

Замечание:

При загрузке файла PRODUCER.PCG, заводские демо-песни, пресетные шаблоны песен и любые пользовательские комбинации или песни, созданные с помощью программ из данных Preload PCG, будут звучать некорректно.

Использование файла PRODUC88.PCG:

- При покупке модели M3-M, M3-61 или M3-73, используйте файл PRODUCER.PCG. При покупке модели M3-88, используйте файл PRODUC88.PCG.
- В файле PRODUC88.PCG, некоторые программы и комбинации имеют отличную октавную настройку, по сравнению с аналогичными в файле PRODUCER.PCG. это сделано для максимальной совместимости с полной 88-нотной клавиатурой.
- Для всех моделей можно использовать общий список тембров (файл M3_PRODUCER_VNL.pdf).
